Important Information About Filter Identification:

Please use calipers when taking measurements to ensure accurate information.

When there is an o-ring, take the measurement on the inside edge of the cap, not on the O-ring.

When measuring the length, please include the distance from cap to cap, as well as the overall length. Including any protrusions.

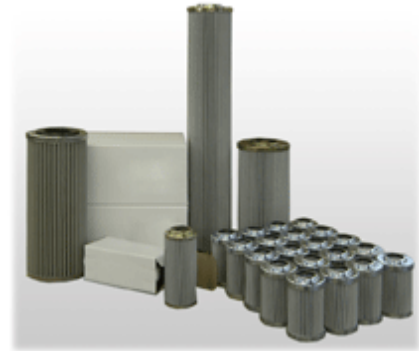

If you can provide photos, please take a minimum of 3 pictures, 1 of each end and 1 side view.

Please note: When placing an order based solely on dimensions, the order will be non-returnable, non-cancelable and non-refundable.

Private Branding

One way to ensure that your customers only call you for a filtration product is to have your own private brand.

When it comes to filtration, Main Filter has you covered and can put your information on almost any filter we manufacture. All you have to do is provide us with a list of the filter part numbers (and their brands) and we'll do the rest. Private branding is a valuable tool because all the information on the product, points back to you.

What does Private Branding involve?

1. Laser engraving your information on the filter.

We laser engrave:

- Your Company Name and logo
- Your phone number and/or website
- Your part number
- or anything else you request (some restrictions may apply)

2. Customizing the Label.

We can customize the Label that goes on the box with the same information lasered onto the end caps plus much more, as shown above.

If this interests you please contact us by phone (1-800-465-6246), fax (705-949-9431) or email (information@filters.org).
